# Alliance to Prevent Predatory Lending

I/ We believe that lending should help build a future, not destroy it with triple digit interest rates and downward spirals of debt.

I/We believe that it is unjust to prey upon anyone based on race, economic status, age, health, or immigration status in order to make a profit.

I/We believe that individuals, faith communities, community organizations, businesses and government must work together to prevent the charging of exorbitant interest rates and fees.

**I/We join the APPL coalition in order to endorse the passage of fair and reasonable consumer protections on predatory lending that will reduce poverty and create safer and stronger communities in Washington State.**
